## "Imperial Army Medical College"

A letter dated "Imperial Army Medical College, Canton, China." and signed "Holt A. Cheng, M. D.," is in hand, that contains an order for a shipment of a specific that the Doctor bluntly admits is a necessity in the treatment of kidney disease.

Dr. Cheng was educated in America and knows the futility of Digitalla, Nitro Glycerin, Basham's Mixture, etc., and sends 7,000 miles for Fulton's Renal Compound.

Another important order was "for Hospital supplies in Paris." The world is beginning to sit up and take notice of the fact that Bright's Disease is being cured.

Even under Fulton's Renal Compound all do not recover, but it is bad judgment to withhold it until the heart and recuperative power are nearly exhausted. Physicians can simply add it to the heart, eliminative and tonic treatment they are giving. There is no conflict. By relaxing the kidneys it changes the prognosis from despair to hope in many cases.
